music: thomas dirr/ claudia kocian,

2014 cd "sofa songs", bellaphon records

i think of a winters' cold night
but you got fire und you hold me tight
i think of a winter's clear sky
i know that you will draw my sleigh

in spring, i like the blossom
and sun that reawakens my skin
i need to do my garden
you understand and you're joining in

i like love in every seasons
i need your love for all seasons
i like love in every season
and nature grooves and you do

the summer warms my body
i am a fruit - i'm getting ripe
i feel my love is risin'
i'm looking forward to a summer night

i like love in every season.....

i see the bright leaves fallin'
fall may be a second spring
giving thanks to cupid
making love in autumn's evening
